FSX & P3D

MONTSERRAT ISLAND

JOHN A. OSBORNE AIRPORT

(TRPG)

MONTSERRAT ISLAND

LEEWARD ISLANDS

John A. Osborne Airport

(IATA: MNI, ICAO: TRPG) Located at Gerald's

Montserrat is a British overseas territory located in the Leeward Islands, part of the chain of islands called the Lesser Antilles in the Caribbean Sea. It measures approximately 16 km (9.9 mi) long and 11 km (6.8 mi) wide, giving 40 kilometres (25 mi) of coastline. Its capital city of Plymouth was destroyed by an eruption of the previously dormant Soufriere Hills volcano in 1995. The eruption continues today on a much reduced scale, the damage being confined to the areas around Plymouth including its docking facilities and the former W.H. Bramble Airport.

Gerald's passenger terminal was dedicated in February 2005 by Anne, Princess Royal and the facility was formally opened on 11 July 2005. It features a 600-metre runway, a restaurant, modern air traffic control technology, immigration facilities, and is the only airport in the Caribbean with a public tunnel under its runway. The total cost of construction was approximately US$18.5 million.

The completion of Gerald's Airport allowed for the resumption of regular commercial airline service to Montserrat for the first time since 1997, when W. H. Bramble Airport, which had been the island's only aviation gateway, was destroyed by an eruption of the nearby Soufrière Hills volcano. Between 1997 and 2005, Montserrat had been accessible only by helicopters or boats.

The airport's name was changed in July 2008 to honour John Osborne, long-standing Chief Minister of Montserrat and the airline FlyMontserrat has its headquarters on the airport property.

FEATURES INCLUDED WITH PACKAGE

- Custom Photo Scenery covering the entire island

- Hand placed Autogen

- Detailed 3D Objects and custom buildings

- Night illumination

- Small Animations

- Accurate AFCAD File

- Static Objects for Surroundings

- Detailed mesh closely resembling real approach.

- Install to find other great features :p

INSTALLATION:

For this scenery to be fully functional, the scenery package from Striking Software: PW Sceneries – Volume 5 The Leeward Islands must be installed. Visit: http://www.strikingsoftware.com/downloads.shtml and download the Volume 5 package. After installation certain files must be deleted to avoid conflict between the two sceneries. These files include:

- Mon1.bgl
- Mon2.bgl
- Mon3.bgl
- Mon4.bgl
- TRPG_ADE_PW.bgl

After these initial files have been installed and deleted, unzip the BLUE SKY TROPICAL SCENERIES – MONTSERRAT folder package into a temporary folder of your choice. Add the scenery to your FSX/P3D Folder by placing it in your FSX folder/ Addon Scenery. After this has been done follow these next instructions:

- Go to settings in the FSX menu.
- Select Scenery Library and Add Area
- Search for BLUE SKY TROPICAL SCENERIES – MONTSERRAT in your Addon Scenery folder and add the area to your add-on scenery list.
- Let FSX and P3D add the scenery.
- Load up and try out your new scenery.
